# Efficient and Convenient Performance Balances with Outstanding Value

**Daily weighing routines are easy and efficient thanks to the ergonomic design features of the NewClassic ME balances. Essential functionality is at your fingertips to provide you with accurate and reliable weighing results day after day.**

But there is more. These robust all-rounder balances not only support your daily tasks with intuitive operation and fast results, they are also easy-to-clean, have front-feet leveling, and are available with internal adjustment at a keystroke.

## Designed to Last

ME balances are built to last. The solid construction and high quality materials ensure you can rely on accurate results for many years to come.

- Solid metal base
- Reinforced body
- Overload protection up to 100 kg

## Simply Reliable

State-of-the-art weighing technology ensures stable and accurate results.

- Fast and reliable results
- Date and time stamp (ISO/GLP)
- Internal adjustment available on all models

## Efficient Operation

The easy-to-use interface enables direct access to applications and calibration routines. Coupled with easy cleaning, your daily tasks are fast and efficient.

- Intuitive interface
- 10 built-in applications
- Rounded edges and smooth surfaces are easy-to-clean

## METTLER TOLEDO Service

### Comprehensive Service

To perform at its peak, a balance should be serviced periodically. Preventive maintenance and calibration are crucial to ensure high uptime and accurate results.

- Up to 50% lower power consumption
- Selection of non-critical materials – PVC-free, mercury-free
- Energy efficient manufacturing and logistic

### Clear Readout

The large numbers on the brilliant backlit display are easy to read in all working environments.

### Daily Protection

These durable balances offer protection against dust and splashing liquids in everyday operation – prolonging balance life and ideal for weighing under harsh conditions.

### Compliant Documentation

Trace your data with built-in data and time function to meet ISO/GLP documentation requirements.
